Dear Jim, 1/5/78

Dan Christiensen and his girl friend Nikki Ortaga were yesterday until about 10 last night. Seem like very good people. Nikki and Lil got along fine. It was very good for Lil.

Dan will probably call you just to say hello. I told him you are too busy to take time out just for meetings now.

He is going to be interviewed by the committee and do some work in the Archives.

I have borrowed a few of his files, a couple of Kilteer transcripts inpparticular. Most for archival value. I have his address for returning them. A few interesting clippings, too.

Got a tape from Jerry day before yesterday but had no time to listen to it so I got up earlier and did. Sick as the rest. He did say the story about Lane and the six-figure contract was a small Kup item he'd sent to Jimmy. It had Lane and Gregory in this six-figure deal with NBC is this version.

They are all flipped out.

Dan is willing to do what he can in Miami if there is anything to be done there.

He is going to talk to Elias Rubin about Hunt in the Webenman connection. He says that Rubin does represent Hunt in that case. He had nothing good to say about Rubin's rep. Apparently a sharpie.

Says denial of Hunt's parole was published down there.

Best,

By the way, he is a contributinf editor of Miami magazine. I've tried to interest him in a story on Howard.
